## June 2012

What is the weight of a snowflake?  
Nothing at all, really.  
Snow began to fall gently, one flake at a time:  
silently as a dream,  
settling on the branches of the fir tree:  
One... two... three...  
Then more: nothing violent, but steadily:  
three hundred flakes... three thousand...  
three million. A gradual build up.  
3,741, 951... 3,741,942...  
But when the 3,741, 943<sup>rd</sup> flake settled on the  
branch – weighing nothing at all –  
the branch suddenly snapped off.  
Sometimes we think that the little we can do  
will make no difference to anything.  
The snowflake's story tells us something else.  
We may think our efforts make no difference.  
We might think they are nothing at all –  
but if we put all efforts together,  
great things are possible.

All blessings

Please remember in your prayers those who are sick or who have lost loved ones. This month we pray for those bereaved by the passing of Robert Bennett & Hubert Coxall. May they rest in peace & rise in glory.
